Report on Soft Skills

On 19th March 2024, Dr. P. Suresh Kumar from the Department of English, ANITS, conducted a series of capacity development and skills enhancement activities for the I/IV CSD A students. The aim of the event was to empower students with essential skills to enhance both their academic performance and future professional endeavors. The sessions focused on developing technical competencies, improving communication skills, and fostering leadership abilities, providing students with a well-rounded skill set for personal and career growth.

The event kicked off with a **Technical Skills Enhancement** session where Dr. Kumar engaged students in practical exercises to bridge the gap between theoretical knowledge and real-world applications. This was followed by a **Communication and Public Speaking Workshop** that aimed to build confidence and improve students' verbal communication abilities. Through interactive discussions, role-playing, and mock presentations, students honed their public speaking skills, preparing them to express ideas more clearly and persuasively in academic and professional settings.

In the afternoon, the focus shifted to **Leadership and Teamwork Development**, where students participated in group activities designed to enhance their collaboration and leadership skills. The session provided valuable insights into different leadership styles and the importance of effective teamwork. The final segment of the day was dedicated to **Career Development**, where Dr. Kumar shared guidance on resume writing, job interviews, and career planning. The event concluded with students feeling more prepared to navigate the professional world, with a better understanding of how to leverage their academic skills for career success.
